*“At a time when so many players claim to be funky, Jerry Stucker is not only FUNKY, but he's a one-man encyclopedia of slinky, skanky, rock steady, and greasy rhythms. He knows a gazillion funky chord inversions, his guitar tone is sparkling, and his parts always stab and dance all over the rhythm, finding ways to propel, accent, and add excitement to a song's groove. If you really want your tunes to dance, this is the cat you need playing guitar for you.”*
